9 10	A PROPOSED RESOLUTION
11	
12	
13 14	
15	IN THE COUNCIL OF THE DISTRICT OF COLUMBIA
16	
17 18	
19	
20	To declare the existence of an emergency with respect to the need to amend the Firearms Control
21 22	Regulations Act of 1975 to extend to January 1, 2016 the date for implementation of the microstamping requirement for semiautomatic pistols.
23	RESOLVED, BY THE COUNCIL OF THE DISTRICT OF COLUMBIA, That this
24	resolution may be cited as the "Microstamping Implementation Emergency Declaration
25	Resolution of 2013".
26	Sec. 2. (a) D.C. Law 17-372, the Firearms Registration Amendment Act of 2008, added
27	to the firearms law a requirement that newly-manufactured semiautomatic pistols be
28	"microstamp-ready."
29	(b) Microstamping creates microscopic markings on a cartridge after a firearm is fired
30	that identify the make, model, and serial number of the firearm, allowing law enforcement to
31	identify a firearm the first time it is used in a crime.
32	(c) In 2007, California became the first state to require microstamping on all new models
33	sold in the state.

(d) The District's microstamping requirement was initially to be implemented in 2011, in
order to incorporate best practices learned from California's experience. However, D.C. Law
18-377, the Criminal Code Amendment Act of 2010, delayed the applicability date from January
1, 2011 until January 1, 2013. At that time, California had only recently issued regulations on
microstamping. Because California was only beginning to put microstamping into practice, the
Council voted to delay the District's implementation in order to allow the model being developed
in California to be further refined.

8 (e) D.C. Law 19-170, the Firearms Amendment Act of 2012, again delayed—to January 9 1, 2014—implementation of microstamping in the District after the process faced further delay in 10 California due to patents on the technology. Implementation was postponed because of the very 11 small nature of the District's market. The view was that once California, a much larger market, 12 implements microstamping, it will become more feasible for implementation in the District.

(f) This year, the patent issues were resolved and the law went into effect in California.
Because California is only now beginning to implement the microstamping requirements, for the
same reasons as stated above, it is necessary to again delay the implementation of the District's
microstamping requirement to allow for more time for the requirement and implementation to
take hold in California.

(g) The law must be amended now to delay the implementation requirement from
January 1, 2014 to January 1, 2016 given that the current implementation date is approaching.
Sec. 3. The Council of the District of Columbia determines that the circumstances
enumerated in section 2 constitute emergency circumstances making it necessary that the
"Microstamping Implementation Emergency Amendment Act of 2013" be adopted after a single
reading.

2

Sec. 4. This resolution shall take effect immediately.
