14 Continental Shelf Lands Act Amendments of 1978 (P.L. 95-372); and

15 **WHEREAS** the Outer Continental Shelf Lands Act Amendments of 1978 established  
16 criteria for the outer continental shelf leasing program and required the United States  
17 Secretary of the Interior to formulate an outer continental shelf leasing program that would  
18 "best meet national energy needs for the five-year period following its approval or  
19 reapproval"; and

20 **WHEREAS** the Bureau of Ocean Energy Management, United States Department of  
21 the Interior, is responsible for managing oil and gas resources on the outer continental shelf

9 stated that extending operations of the Trans Alaska Pipeline System is a priority; and

11 one-quarter of its capacity, and the continued operations of the system depend on new  
12 discoveries; and

13 **WHEREAS**, in the Chukchi Sea Planning Area, Sale 193, the most recent sale in this  
14 area, was held in February 2008 and generated more than \$2,600,000,000 in revenue; and
