14 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

15

PART 1

16 Sec. 1001. RCW 71.24.011 and 1982 c 204 s 1 are each amended to 17 read as follows:

18 This chapter may be known and cited as the community ((mental))
19 <u>behavioral</u> health services act.

20 Sec. 1002. RCW 71.24.015 and 2018 c 201 s 4001 are each amended 21 to read as follows:

22 It is the intent of the legislature to establish a community 23 ((mental)) <u>behavioral</u> health ((program)) <u>system</u> which shall help 24 people experiencing mental illness or a substance use disorder to retain a respected and productive position in the community. This 25 will be accomplished through programs that focus on resilience and 26 27 recovery, and practices that are evidence-based, research-based, 28 consensus-based, or, where these do not exist, promising or emerging 29 best practices, which provide for:

(1) Access to ((mental)) <u>behavioral</u> health services for adults with mental illness and children with mental illness ((or)), emotional disturbances ((who meet access to care standards which services)), or substance use disorders, that recognize the special needs of underserved populations, including minorities, children, older adults, individuals with disabilities, and low-income persons. Access to mental health <u>and substance use disorder</u> services shall not

1 be limited by a person's history of confinement in a state, federal, or local correctional facility. It is also the purpose of this 2 chapter to promote the early identification of children with mental 3 illness and to ensure that they receive the mental health care and 4 treatment which is appropriate to their developmental level. This 5 6 care should improve home, school, and community functioning, maintain children in a safe and nurturing home environment, and should enable 7 treatment decisions to be made in response to clinical needs in 8 accordance with sound professional judgment while also recognizing 9 parents' rights to participate in treatment decisions for their 10 children; 11

12 (2) The involvement of persons with mental illness or substance use disorder, their family members, and advocates in designing and 13 implementing ((mental)) <u>behavioral</u> health services that reduce 14 unnecessary hospitalization and incarceration and promote ((the)) 15 16 recovery and employment ((of persons with mental illness)). To 17 improve the quality of services available and promote the rehabilitation, recovery, and reintegration of persons with mental 18 19 illness or substance use disorder, consumer and advocate participation in ((mental)) <u>behavioral</u> health services is an integral 20 21 part of the community ((mental)) <u>behavioral</u> health system and shall 22 be supported;

(3) Accountability of efficient and effective services through state-of-the-art outcome and performance measures and statewide standards for monitoring client and system outcomes, performance, and reporting of client and system outcome information. These processes shall be designed so as to maximize the use of available resources for direct care of people with a mental illness and to assure uniform data collection across the state;

30

(4) Minimum service delivery standards;

(5) Priorities for the use of available resources for the care of individuals with mental illness <u>or substance use disorder</u> consistent with the priorities defined in the statute;

(6) Coordination of services within the department of social and health services, ((including those divisions within the department of social and health services that provide services to children, between)) the authority, the department, the department of ((social and health services)) children, youth, and families, and the office of the superintendent of public instruction, and among state mental hospitals, tribes, residential treatment facilities, county authorities, behavioral health <u>administrative services</u> organizations, <u>managed care organizations</u>, community ((mental)) <u>behavioral</u> health services, and other support services, which shall to the maximum extent feasible also include the families of individuals with mental illness <u>or substance use disorder</u>, and other service providers, <u>including Indian health care providers</u>; and

7 (7) Coordination of services aimed at reducing duplication in 8 service delivery and promoting complementary services among all 9 entities that provide ((mental)) <u>behavioral</u> health services to adults 10 and children.

It is the policy of the state to encourage the provision of a 11 12 full range of treatment and rehabilitation services in the state for mental disorders, or substance use disorders, including services 13 operated by consumers and advocates. The legislature intends to 14 encourage the development of regional ((mental)) <u>behavioral</u> health 15 16 services with adequate local flexibility to assure eligible people in 17 need of care access to the least-restrictive treatment alternative appropriate to their needs, and the availability of treatment 18 components to assure continuity of care. ((To this end, counties must 19 enter into joint operating agreements with other counties to form 20 21 regional systems of care that are consistent with the regional service areas established under RCW 74.09.870. Regional systems of 22 23 care, whether operated by a county, group of counties, or another entity shall integrate planning, administration, and service delivery 24 25 duties under chapter 71.05 RCW and this chapter to consolidate administration, reduce administrative layering, and reduce 26 27 administrative costs.)) The legislature hereby finds and declares 28 that sound fiscal management requires vigilance to ensure that funds appropriated by the legislature for the provision of needed community 29 ((mental)) <u>behavioral</u> health ((programs and)) <u>system</u> services are 30 31 ultimately expended solely for the purpose for which they were 32 appropriated, and not for any other purpose.

33 It is further the intent of the legislature to integrate the 34 provision of services to provide continuity of care through all 35 phases of treatment. To this end, the legislature intends to promote 36 active engagement with persons with mental illness and collaboration 37 between families and service providers.

38 Sec. 1003. RCW 71.24.016 and 2014 c 225 s 7 are each amended to 39 read as follows:

1 (1) The legislature intends that eastern and western state hospitals shall operate as clinical centers for handling the most 2 complicated long-term care needs of patients with a primary diagnosis 3 of mental disorder. It is further the intent of the legislature that 4 the community ((mental)) behavioral health service delivery system 5 6 focus on maintaining individuals with mental illness in the 7 community. The program shall be evaluated and managed through a limited number of outcome and performance measures, as provided in 8 RCW 43.20A.895 (as recodified by this act), 70.320.020, and 9 10 71.36.025.

(2) The legislature intends to address the needs of people with 11 12 mental disorders with a targeted, coordinated, and comprehensive set of evidence-based practices that are effective in serving individuals 13 in their community and will reduce the need for placements in state 14 15 mental hospitals. The legislature further intends to explicitly hold behavioral health administrative services organizations, within 16 17 available resources, and managed care organizations accountable for serving people with mental disorders who live within the boundaries 18 19 of their regional service area ((and for not exceeding their 20 allocation of state hospital beds)).

21 (3) The authority shall establish a work group to determine: (a) 22 How to appropriately manage access to adult long-term inpatient 23 involuntary care in the community and at eastern and western state 24 hospitals, until such a time as the risk for long-term involuntary 25 inpatient care may be fully integrated into managed care organization contracts, and provide advice to guide the integration process; and 26 27 (b) how to expand bidirectional integration through increased support for co-occurring disorder services, including recommendations related 28 to purchasing and rates. The work group shall include representation 29 30 from the department of social and health services, the department of health, behavioral health administrative services organizations, 31 managed care organizations, the Washington state association of 32 counties, community behavioral health providers, including providers 33 34 with experience providing co-occurring disorder services, and the Washington state hospital association. 11 Sec. 1027. RCW 71.24.450 and 1997 c 342 s 1 are each amended to 12 read as follows:

13 (1) Many ((acute and chronically mentally ill)) offenders with acute and chronic mental illness are delayed in their release from 14 15 Washington correctional facilities due to their inability to access 16 reasonable treatment and living accommodations prior to the maximum expiration of their sentences. Often the offender reaches the end of 17 his or her sentence and is released without any follow-up care, 18 funds, or housing. These delays are costly to the state, often lead 19 20 to psychiatric relapse, and result in unnecessary risk to the public.

<u>Many of these offenders ((rarely possess))</u> <u>lack</u> the skills or emotional stability to maintain employment or even complete applications to receive entitlement funding. ((Nationwide only five percent of diagnosed schizophrenics are able to maintain part-time or full-time employment.)) Housing and appropriate treatment are difficult to obtain.

This lack of resources, funding, treatment, and housing creates additional stress for the ((mentally ill)) offender with mental illness, impairing self-control and judgment. When the mental illness is instrumental in the offender's patterns of crime, such stresses may lead to a worsening of his or her illness, reoffending, and a threat to public safety.

(2) It is the intent of the legislature to create a ((pilot)) program to provide for postrelease mental health care and housing for a select group of ((mentally ill)) offenders with mental illness entering community living, in order to reduce incarceration costs, increase public safety, and enhance the offender's quality of life.

1 Sec. 1028. RCW 71.24.455 and 2018 c 201 s 4029 are each amended
2 to read as follows:

(1) The director shall select and contract with a behavioral 3 administrative services organization, managed care health 4 organization, behavioral health agency, or private provider to 5 6 provide specialized access and services to offenders with mental illness upon release from total confinement within the department of 7 corrections who have been identified by the department of corrections 8 and selected by the behavioral health administrative services 9 organization, managed care organization, behavioral health agency, or 10 private provider as high-priority clients for services and who meet 11 12 service program entrance criteria. The program shall enroll no more than twenty-five offenders at any one time, or a number of offenders 13 that can be accommodated within the appropriated funding level, and 14 15 shall seek to fill any vacancies that occur.

16 (2) Criteria shall include a determination by department of 17 corrections staff that:

(a) The offender suffers from a major mental illness and needscontinued mental health treatment;

(b) The offender's previous crime or crimes have been determined by either the court or department of corrections staff to have been substantially influenced by the offender's mental illness;

(c) It is believed the offender will be less likely to commit further criminal acts if provided ongoing mental health care;

25 (d) The offender is unable or unlikely to obtain housing and/or 26 treatment from other sources for any reason; and

(e) The offender has at least one year remaining before his or her sentence expires but is within six months of release to community housing and is currently housed within a work release facility or any department of corrections' division of prisons facility.

31 (3) The behavioral health <u>administrative services</u> organization 32 managed care organization, behavioral health agency, or private 33 provider shall provide specialized access and services to the 34 selected offenders. The services shall be aimed at lowering the risk of recidivism. An oversight committee composed of a representative of 35 the authority, a representative of the selected <u>managed care</u> 36 organization, behavioral health administrative services organization, 37 or private provider, and a representative of the department of 38 39 corrections shall develop policies to guide the pilot program, 40 provide dispute resolution including making determinations as to when

2SSB 5432

1 entrance criteria or required services may be waived in individual cases, advise the department of corrections and the managed care 2 organization, behavioral health administrative services organization, 3 or private provider on the selection of eligible offenders, and set 4 minimum requirements for service contracts. (a) Intensive case management to include a full range of 9 intensive community support and treatment in client-to-staff ratios 10 of not more than ten offenders per case manager including: (i) A 11 12 minimum of weekly group and weekly individual counseling; (ii) home visits by the program manager at least two times per month; and (iii) 13 counseling focusing on maintaining and promoting ongoing stability, 14 15 relapse prevention, and ((past, current, or future behavior of the 16 offender)) recovery.

17 (b) The case manager shall attempt to locate and procure housing appropriate to the living and clinical needs of the offender and as 18 19 needed to maintain the psychiatric stability of the offender. The entire range of emergency, transitional, and permanent housing and 20 21 involuntary hospitalization must be considered as available housing options. A housing subsidy may be provided to offenders to defray 22 23 housing costs up to a maximum of six thousand six hundred dollars per offender per year and be administered by the case manager. Additional 24 25 funding sources may be used to offset these costs when available.

(e) A systematic effort to engage offenders to continuously
 involve themselves in current and long-term treatment and appropriate
 habilitative activities shall be made.

39 (f) Classes appropriate to the clinical and living needs of the 40 offender and appropriate to his or her level of understanding. 1 (g) The case manager shall assist the offender in the application 2 and qualification for entitlement funding, including medicaid, state 3 assistance, and other available government and private assistance at 4 any point that the offender is qualified and resources are available.

5 (h) The offender shall be provided access to daily activities 6 such as drop-in centers, prevocational and vocational training and 7 jobs, and volunteer activities.

8 (4) Once an offender has been selected into the pilot program, 9 the offender shall remain in the program until the end of his or her 10 sentence or unless the offender is released from the pilot program 11 earlier by the department of corrections.

12 (5) Specialized training in the management and supervision of 13 high-crime risk offenders with mental illness shall be provided to 14 all participating mental health providers by the authority and the 15 department of corrections prior to their participation in the program 16 and as requested thereafter.

17 (((6) The pilot program provided for in this section must be 18 providing services by July 1, 1998.))

19 Sec. 1029. RCW 71.24.460 and 2018 c 201 s 4030 are each amended 20 to read as follows:

If the reoffense rate exceeds fifteen 34 percent, the authorization for the department to conduct the program 35 36 under RCW 71.24.455 is terminated on January 1, 2004.))

37 Sec. 1030. RCW 71.24.470 and 2018 c 201 s 4031 are each amended 38 to read as follows: 1 (1) The director shall contract, to the extent that funds are 2 appropriated for this purpose, for case management services and such 3 other services as the director deems necessary to assist offenders 4 identified under RCW 72.09.370 for participation in the offender 5 reentry community safety program. The contracts may be with 6 ((behavioral health organizations or)) any ((other)) qualified and 7 appropriate entities.

 inpatient use;

(E) Promoting provider participation in the program of training and technical assistance regarding care of people with chronic conditions described in RCW 43.70.533, including allocation of funds to support provider participation in the training, unless the managed care system is an integrated health delivery system that has programs in place for chronic care management;

37 (F) Provider reimbursement methods within the medical billing 38 processes that incentivize pharmacists or other qualified providers 39 licensed in Washington state to provide comprehensive medication 1 management services consistent with the findings and goals
2 established in RCW 74.09.5223;

3 (G) Evaluation and reporting on the impact of comprehensive 4 medication management services on patient clinical outcomes and total 5 health care costs, including reductions in emergency department 6 utilization, hospitalization, and drug costs; and

(H) Established consistent processes to incentivize integration
of behavioral health services in the primary care setting, promoting
care that is integrated, collaborative, colocated, and preventive.

10 (ii) (A) Health home services contracted for under this subsection 11 may be prioritized to enrollees with complex, high cost, or multiple 12 chronic conditions.

(B) Contracts that include the items in (e)(i)(C) through (G) of this subsection must not exceed the rates that would be paid in the absence of these provisions;

16 (f) The authority shall seek waivers from federal requirements as 17 necessary to implement this chapter;

(g) The authority shall, wherever possible, enter into prepaid capitation contracts that include inpatient care. However, if this is not possible or feasible, the authority may enter into prepaid capitation contracts that do not include inpatient care;

(h) The authority shall define those circumstances under which a
 managed health care system is responsible for out-of-plan services
 and assure that recipients shall not be charged for such services;

(i) Nothing in this section prevents the authority from entering into similar agreements for other groups of people eligible to receive services under this chapter; and

(j) The authority must consult with the federal center for medicare and medicaid innovation and seek funding opportunities to support health homes.

31 (3) The authority shall ensure that publicly supported community 32 health centers and providers in rural areas, who show serious intent 33 and apparent capability to participate as managed health care systems 34 are seriously considered as contractors. The authority shall 35 coordinate its managed care activities with activities under chapter 36 70.47 RCW.

37 (4) The authority shall work jointly with the state of Oregon and 38 other states in this geographical region in order to develop 39 recommendations to be presented to the appropriate federal agencies

and the United States congress for improving health care of the poor,
 while controlling related costs.

(5) The legislature finds that competition in the managed health 3 care marketplace is enhanced, in the long term, by the existence of a 4 large number of managed health care system options for medicaid 5 6 clients. In a managed care delivery system, whose goal is to focus on prevention, primary care, and improved enrollee health status, 7 continuity in care relationships is of substantial importance, and 8 disruption to clients and health care providers should be minimized. 9 To help ensure these goals are met, the following principles shall 10 11 guide the authority in its healthy options managed health care 12 purchasing efforts:

(a) All managed health care systems should have an opportunity to contract with the authority to the extent that minimum contracting requirements defined by the authority are met, at payment rates that enable the authority to operate as far below appropriated spending levels as possible, consistent with the principles established in this section.

(b) Managed health care systems should compete for the award of contracts and assignment of medicaid beneficiaries who do not voluntarily select a contracting system, based upon:

(i) Demonstrated commitment to or experience in serving lowincome populations;

24 (ii) Quality of services provided to enrollees;

25 (iii) Accessibility, including appropriate utilization, of 26 services offered to enrollees;

(iv) Demonstrated capability to perform contracted services,including ability to supply an adequate provider network;

34 (c) Consideration should be given to using multiple year 35 contracting periods.

36 (d) Quality, accessibility, and demonstrated commitment to 37 serving low-income populations shall be given significant weight in 38 the contracting, evaluation, and assignment process.

39 (e) All contractors that are regulated health carriers must meet40 state minimum net worth requirements as defined in applicable state

laws. The authority shall adopt rules establishing the minimum net 1 worth requirements for contractors that are not regulated health 2 3 carriers. This subsection does not limit the authority of the Washington state health care authority to take action under 4 а contract upon finding that a contractor's financial status seriously 5 6 jeopardizes the contractor's ability to meet its contract 7 obligations.

8 (f) Procedures for resolution of disputes between the authority 9 and contract bidders or the authority and contracting carriers 10 related to the award of, or failure to award, a managed care contract 11 must be clearly set out in the procurement document.

12 (6) The authority may apply the principles set forth in 13 subsection (5) of this section to its managed health care purchasing 14 efforts on behalf of clients receiving supplemental security income 15 benefits to the extent appropriate.

16 (7) ((By April 1, 2016,)) Any contract with a managed health care 17 system to provide services to medical assistance enrollees shall 18 require that managed health care systems offer contracts to ((behavioral health organizations,)) mental health providers((, or 19 chemical dependency)) and substance use disorder treatment providers 20 21 to provide access to primary care services integrated into behavioral 22 health clinical settings, for individuals with behavioral health and 23 medical comorbidities.

(8) Managed health care system contracts effective on or after
 April 1, 2016, shall serve geographic areas that correspond to the
 regional service areas established in RCW 74.09.870.

(9) A managed health care system shall pay a nonparticipating provider that provides a service covered under this chapter or other applicable law to the system's enrollee no more than the lowest amount paid for that service under the managed health care system's contracts with similar providers in the state if the managed health care system has made good faith efforts to contract with the nonparticipating provider.

(10) For services covered under this chapter or other applicable law to medical assistance or medical care services enrollees ((and provided on or after August 24, 2011)), nonparticipating providers must accept as payment in full the amount paid by the managed health care system under subsection (9) of this section in addition to any deductible, coinsurance, or copayment that is due from the enrollee for the service provided. An enrollee is not liable to any

1 nonparticipating provider for covered services, except for amounts 2 due for any deductible, coinsurance, or copayment under the terms and 3 conditions set forth in the managed health care system contract to 4 provide services under this section.

(11) Pursuant to federal managed care access standards, 42 C.F.R. 5 Sec. 438, managed health care systems must maintain a network of 6 7 appropriate providers that is supported by written agreements sufficient to provide adequate access to all services covered under 8 the contract with the authority, including hospital-based physician 9 services. The authority will monitor and periodically report on the 10 11 proportion of services provided by contracted providers and 12 nonparticipating providers, by county, for each managed health care system to ensure that managed health care systems are meeting network 13 14 adequacy requirements. No later than January 1st of each year, the authority will review and report its findings to the appropriate 15 16 policy and fiscal committees of the legislature for the preceding 17 state fiscal year.

18

30 The authority, in collaboration with the Washington (2) 31 association of sheriffs and police chiefs, the department of corrections, <u>managed care organizations</u>, and ((the)) behavioral 32 health administrative services organizations, shall establish 33 procedures for coordination between the authority and department 34 35 field offices, institutions for mental disease, and correctional institutions, as defined in RCW 9.94.049, that result in prompt 36 reinstatement of eligibility and speedy eligibility determinations 37 38 for persons who are likely to be eligible for medical assistance

The authority shall, to the 22 maximum extent permitted by federal law, use the examination in 23 making its determination whether the person is disabled and eligible 24 25 for medical assistance.

(4) For purposes of this section, "confined" or "confinement"
means incarcerated in a correctional institution, as defined in RCW
9.94.049, or admitted to an institute for mental disease, as defined
in 42 C.F.R. part 435, Sec. 1009 on July 24, 2005.

The agreement is inadmissible in any 19 criminal or civil proceeding. The agreement does not create immunity 20 from prosecution for the alleged criminal activity.

(5) If an individual violates such agreement and the mental health treatment alternative is no longer appropriate:

(a) The mental health provider shall inform the referring lawenforcement agency of the violation; and

(b) The original charges may be filed or referred to the prosecutor, as appropriate, and the matter may proceed accordingly.

To facilitate the continuum 38 of care and treatment to minors in out-of-home placements, all 39

p. 122

2SSB 5432

1 divisions of the department that provide these services to minors shall jointly plan and deliver these services. It is also the purpose 2 of the disposition alternative to protect the rights of minors 3 against needless hospitalization and deprivations of liberty and to 4 enable treatment decisions to be made in response to clinical needs 5 6 and in accordance with sound professional judgment. The mental 7 health, substance abuse, and co-occurring disorder treatment providers shall, to the extent possible, offer services that involve 8 minors' parents, guardians, and family. 9

The court must consider eligibility for the ((chemical 10 (2)dependency)) <u>substance use disorder</u> or mental health disposition 11 12 alternative when a juvenile offender is subject to a standard range disposition of local sanctions or 15 to 36 weeks of confinement and 13 has not committed an A- or B+ offense, other than a first time B+ 14 offense under chapter 69.50 RCW. The court, on its own motion or the 15 16 motion of the state or the respondent if the evidence shows that the 17 offender may be chemically dependent, substance abusing, or has significant mental health or co-occurring disorders may order an 18 19 examination by a ((chemical dependency)) substance use disorder counselor from a ((chemical dependency)) substance use disorder 20 21 treatment facility approved under chapter 70.96A RCW or a mental health professional as defined in chapter 71.34 RCW to determine if 22 23 the youth is chemically dependent, substance abusing, or suffers from significant mental health or co-occurring disorders. The offender 24 25 shall pay the cost of any examination ordered under this subsection unless the court finds that the offender is indigent and no third 26 party insurance coverage is available, in which case the state shall 27 28 pay the cost.

(3) The report of the examination shall include at a minimum the following: The respondent's version of the facts and the official version of the facts, the respondent's offense history, an assessment of drug-alcohol problems, mental health diagnoses, previous treatment attempts, the respondent's social, educational, and employment situation, and other evaluation measures used. The report shall set forth the sources of the examiner's information.

36 (4) The examiner shall assess and report regarding the 37 respondent's relative risk to the community. A proposed treatment 38 plan shall be provided and shall include, at a minimum:

39 (a) Whether inpatient and/or outpatient treatment is recommended;
40 (b) Availability of appropriate treatment;

(c) Monitoring plans, including any requirements regarding living
 conditions, lifestyle requirements, and monitoring by family members,
 legal guardians, or others;

4

(d) Anticipated length of treatment; and

5

(e) Recommended crime-related prohibitions.

6 (5) The court on its own motion may order, or on a motion by the 7 state or the respondent shall order, a second examination. The evaluator shall be selected by the party making the motion. The 8 requesting party shall pay the cost of any examination ordered under 9 this subsection unless the requesting party is the offender and the 10 11 court finds that the offender is indigent and no third party insurance coverage is available, in which case the state shall pay 12 13 the cost.

14 (6) (a) After receipt of reports of the examination, the court 15 shall then consider whether the offender and the community will 16 benefit from use of this disposition alternative and consider the 17 victim's opinion whether the offender should receive a treatment 18 disposition under this section.

(b) If the court determines that this disposition alternative is 19 appropriate, then the court shall impose the standard range for the 20 21 offense, or if the court concludes, and enters reasons for its conclusion, that such disposition would effectuate a manifest 22 injustice, the court shall impose a disposition above the standard 23 range as indicated in option D of RCW 13.40.0357 if the disposition 24 25 is an increase from the standard range and the confinement of the offender does not exceed a maximum of fifty-two weeks, suspend 26 execution of the disposition, and place the offender on community 27 28 supervision for up to one year. As a condition of the suspended disposition, the court shall require the offender to undergo 29 available outpatient drug/alcohol, mental health, or co-occurring 30 31 disorder treatment and/or inpatient mental health or drug/alcohol 32 treatment. The court shall only order inpatient treatment under this section if a funded bed is available. If the inpatient treatment is 33 longer than ninety days, the court shall hold a review hearing every 34 thirty days beyond the initial ninety days. The respondent may appear 35 36 telephonically at these review hearings if in compliance with treatment. As a condition of the suspended disposition, the court may 37 impose conditions of community supervision and other sanctions, 38 39 including up to thirty days of confinement, one hundred fifty hours

1 of community restitution, and payment of legal financial obligations 2 and restitution.

(7) The mental health/co-occurring disorder/drug/alcohol 3 treatment provider shall submit monthly reports on the respondent's 4 progress in treatment to the court and the parties. The reports shall 5 6 reference the treatment plan and include at a minimum the following: Dates of attendance, respondent's compliance with requirements, 7 treatment activities, the respondent's relative progress 8 in treatment, and any other material specified by the court at the time 9 of the disposition. 10

11 At the time of the disposition, the court may set treatment 12 review hearings as the court considers appropriate.

13 If the offender violates any condition of the disposition or the 14 court finds that the respondent is failing to make satisfactory 15 progress in treatment, the court may impose sanctions pursuant to RCW 16 13.40.200 or revoke the suspension and order execution of the 17 disposition. The court shall give credit for any confinement time 18 previously served if that confinement was for the offense for which 19 the suspension is being revoked.

(8) For purposes of this section, "victim" means any person who has sustained emotional, psychological, physical, or financial injury to person or property as a direct result of the offense charged. "Victim" may also include a known parent or guardian of a victim who is a minor child or is not a minor child but is incapacitated, incompetent, disabled, or deceased.

(9) Whenever a juvenile offender is entitled to credit for time spent in detention prior to a dispositional order, the dispositional order shall specifically state the number of days of credit for time served.

30 (10) In no case shall the term of confinement imposed by the 31 court at disposition exceed that to which an adult could be subjected 32 for the same offense.

33 (11) A disposition under this section is not appealable under RCW 34 13.40.230.

35 (12) Subject to funds appropriated for this specific purpose, the 36 costs incurred by the juvenile courts for the mental health, 37 ((chemical dependency)) substance use disorder, and/or co-occurring 38 disorder evaluations, treatment, and costs of supervision required 39 under this section shall be paid by the ((department)) health care 40 authority.

The authority and the department may develop and utilize innovative mechanisms to promote and sustain integrated clinical models of physical and behavioral health care.

7 (2) The authority and the department may incorporate the 8 following principles into future medicaid procurement efforts aimed 9 at integrating the delivery of physical and behavioral health 10 services:

(a) Medicaid purchasing must support delivery of integrated, person-centered care that addresses the spectrum of individuals' health needs in the context of the communities in which they live and with the availability of care continuity as their health needs change;

(b) Accountability for the client outcomes established in RCW 43.20A.895 (as recodified by this act) and 71.36.025 and performance measures linked to those outcomes;

19 (c) Medicaid benefit design must recognize that adequate 20 preventive care, crisis intervention, and support services promote a 21 recovery-focused approach;

22 (d) Evidence-based care interventions and continuous quality 23 improvement must be enforced through contract specifications and 24 performance measures that provide meaningful integration at the 25 patient care level with broadly distributed accountability for 26 results;

27 (e) Active purchasing and oversight of medicaid managed care 28 contracts is a state responsibility;

(f) A deliberate and flexible system change plan with identified benchmarks to promote system stability, provide continuity of treatment for patients, and protect essential existing behavioral health system infrastructure and capacity; and

33 (g) Community and organizational readiness are key determinants 34 of implementation timing; a phased approach is therefore desirable.

(3) The principles identified in subsection (2) of this sectionare not intended to create an individual entitlement to services.

37 (4) The authority shall increase the use of value-based 38 contracting, alternative quality contracting, and other payment 39 incentives that promote quality, efficiency, cost savings, and health 40 improvement, for medicaid and public employee purchasing. The

authority shall also implement additional chronic disease management techniques that reduce the subsequent need for hospitalization or readmissions. It is the intent of the legislature that the reforms the authority implements under this subsection are anticipated to reduce extraneous medical costs, across all medical programs, when fully phased in by fiscal year 2017 to generate budget savings identified in the omnibus appropriations act.
