**SENATE SUBSTITUTE AMENDMENT 1,
TO SENATE BILL 466**

December 18, 2023 – Offered by Senator STAFSHOLT.

AUTHORS SUBJECT TO CHANGE

1 **AN ACT to amend** 165.60 and 175.35 (2k) (ar) 1.; and **to create** 175.31 and 224.60
2 of the statutes; **relating to:** prohibiting firearms merchant category codes in
3 payment card transactions and prohibiting government lists of firearm owners.

Analysis by the Legislative Reference Bureau

This bill prohibits a payment card network or its agent from requiring, as part of a payment card transaction, the use of a merchant category code that identifies the merchant as a firearms retailer. The bill also provides that the Department of Justice may not maintain a list of firearm purchasers based on information from background checks that DOJ performs and that no governmental entity may maintain a list of firearm owners. The bill requires the attorney general to enforce the prohibitions created in this bill.

Firearms codes in payment card transactions

The bill prohibits a payment card network or its agent from requiring the use of a firearms code in a way that distinguishes a firearms retailer from general merchandise retailers or sporting goods retailers. The bill defines a “payment card network” as an entity that directly or through a licensed party, processor, or agent provides the proprietary services, infrastructure, or software that routes information and data to conduct a payment card transaction in which a merchant accepts payment through a payment card. A “firearms code” is defined as a merchant

category code approved by the International Organization for Standardization specifically for firearms retailers. In addition, with limited exceptions, a payment card issuer or a payment card network or its agent may not decline or otherwise refuse to process a lawful payment card transaction based solely on the assignment or nonassignment of a firearms code. The bill defines a “payment card issuer” as an entity, including a financial institution, that is responsible for approving or declining a payment card transaction on behalf of a customer.

The bill provides the attorney general with exclusive authority to enforce these provisions. Under the bill, the attorney general must investigate alleged violations of these provisions and, upon finding a violation, must provide written notice to the person alleged to be in violation. Upon receipt of this notice, the person must cease the use of a firearms code for any merchant in this state within 30 days. If the person is still in violation after 30 days, the attorney general must pursue an injunction in court against the person.

Prohibitions on government lists of firearm owners

Current law provides that a federally licensed firearms dealer may not transfer a handgun after a sale until the dealer has requested DOJ to perform a background check on the prospective transferee to determine if he or she is prohibited from possessing a firearm under state or federal law. Unless the background check indicates that the prospective transferee is prohibited from possessing a firearm, current law requires DOJ to deny access to records regarding background checks and to destroy all such records within 30 days after the background check is complete. This bill further requires DOJ to ensure that such records are not stored, maintained, or formatted into a list that identifies persons who have purchased a firearm.

The bill also prohibits governmental entities from intentionally creating, storing, or maintaining a list of individuals who own firearms. The bill provides an exception for criminal investigations or prosecutions or for determining compliance with court orders or injunctions.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
